FOREWORD

"Space Travel" is the theme of the 1956 Prospector. The "WAC-Corporal" has reached a height of 250 miles and its speed, plus that acquired from the V-2, which took it up twenty miles, was 5,400 miles per hour. The Air Force has a plane, the X-2, that is expected to break the altitude record of 90,000 feet and to exceed 2,000 miles per hour, breaking the heat barrier (present plane record: 1,258 miles per hour and altitude 79,494 feet).

So, we hope you will enjoy our cartoon drawings and our photograph pages of what could be future worlds to us.

DEDICATION

We have been brought up on "Space Patrol." To us, space travel is a "soon-to-come" thing. The earth is no longer our sphere of confinement. Space, time, robots, and atomic power are shaping and will shape the world to come.

So we are dedicating our book to the infinite, limitless futures for our endeavors. May we "dream big"—and make our dreams come true!

THE GREATER VISTA *Superintendent* WILLIAM WILSON

Students of today envision a world of limitless opportunity and rapidly increasing responsibility. Ours is an age of science in which the swift release of nature's power, eternally stored within the tiny atom, supplies the missing key to extensive scientific exploration and discovery throughout an expanding universe. Men of true vision know that the race between education and catastrophe approaches supersonic speeds, that there is grave need for application of scientific methods to the solution of persistent social problems, that man's best hope rests in improved and world-wide education based on universal truth.

Across the "Space Frontier" will be the story of the greatest adventure awaiting man—the conquest and exploration of space. This is not a science-fictionist's dream but a reality that will eventually come true.

The potentialities of a "gravity free" space station in a world at peace transcend the imagination, but, besides being a springboard for the exploration of the heavens and the gathering of further knowledge for the benefit of man, the space station could be the greatest aid to peace ever devised or one of the most terrible weapons of war—depending on who builds and controls it.

We in our public schools must develop the future scientist and the engineer. We must continue to encourage the inventive genius of young Americans in order that the United States may be the first to expedite man's ever-expanding struggle against the limitations set by nature.

CROSS

COUNTRY

"A" TEAM—First row: Coach Payne, Joe George, Allen Cranford, John VanDoren, Louis Jones. Second row: Phillip Oyung, David Winkle.

"B" TEAM—First row: Larry Roberts, Gary Buschman, Dave Justice, Don Sanders, Dick Eckenburg.

"C" TEAM—First row: Dick Milham, Ron Mendoza, Fred Weber, Bill Sammons, Buzzie Steele. Second row: Lee Duncan, Ray Covington.

Little recognition has been given to the Cross Country Teams of Nevada Union High School.

During the past four years our Cross Country Teams have won twelve trophies: eight Sierra Football League trophies and four San Joaquin Sectional trophies. Also the team has won numerous medals, ribbons, and miniature championship track shoes. Nevada Union has won exactly one-half of all the trophies given in the last four years of competition in Cross Country. Coaches have been Roger Snipe and Don Payne.

So, in this field, we show SUPERSONIC SPEED!

PINAFORE

Pinafore was presented in the late spring of 1955. This very successful operetta, thoroughly and happily appreciated by everyone, was produced by Mrs. Marian Libbey, with the help of Miss Dorothy Dyke designing and painting scenery, Mr. Robert Frost building scenery, Mrs. Helen Liotta costuming, Mrs. Ruth Cardin, dramatic direction, and Mr. Franc Luschen directing the orchestra, and Mr. Luckinbill, stage manager.

Delegates to the College of Pacific Music Conference. Advisor, Mr. George Peavy. Not pictured: Advisor, Mrs. Marian Libbey, M. J. Iles, L. Bader, and D. Medlyn.

SPEECH CLASS

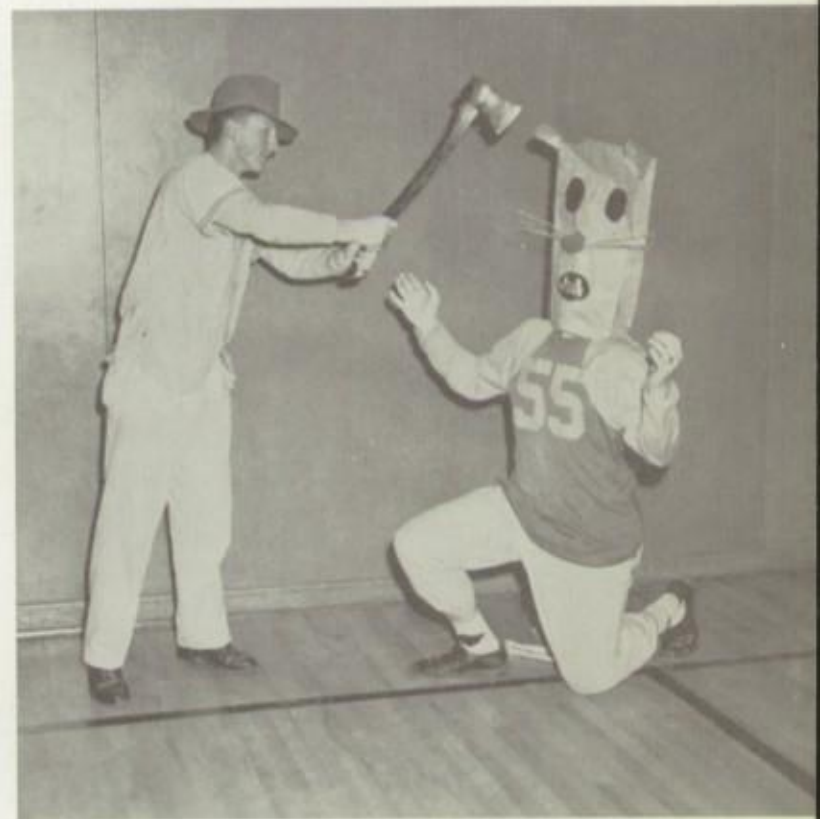

This class has done a beautiful job in the activities it has presented. The training and experience has been evident in many panels such as the Juvenile Delinquency panel, in Nomination Speeches, Polio Drive talks, Commencement speakers—besides putting on clever skits in our pep assemblies.

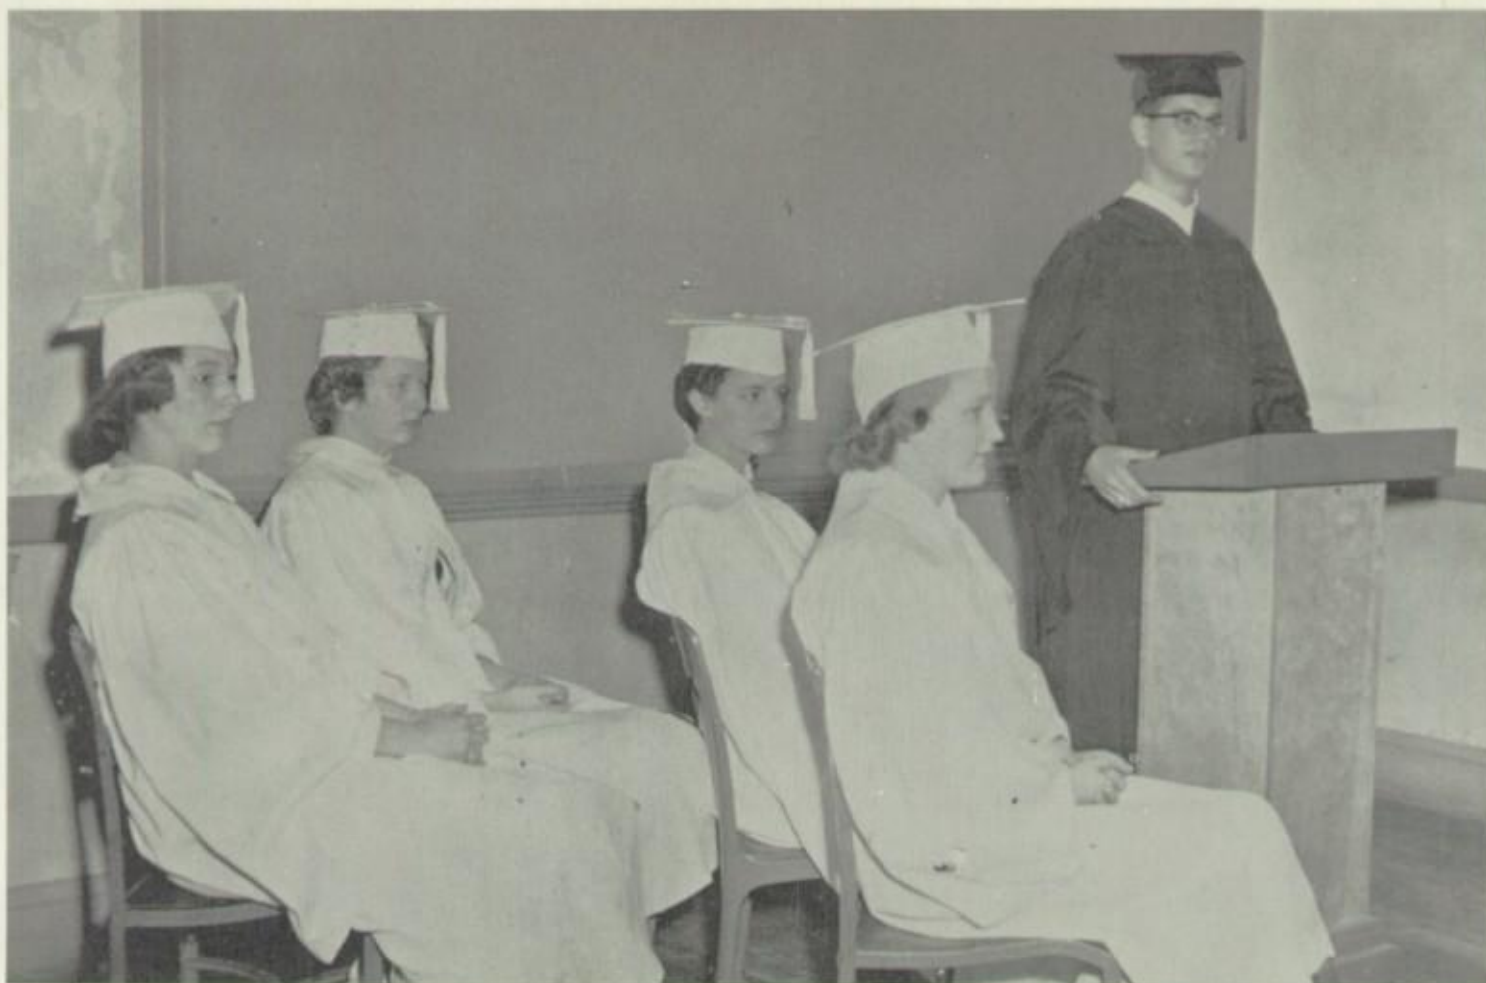

These are a few pictures of some members of the class: Lions' Speaking Contest, M. Loveall, D. O'Rourke, J. Miner, S. Rolfe, Advisor, Mr. E. Stevens. (Winners—Sharon and Marilyn.)

Dear Gary

I have known you for 3 or 4 years now. And you and one of the best friends any one could have. I'm glad you got your driving License so we can go some places together maybe we can go to the State fair and stay over night down there like Beanna did. Lots of luck in the years to come. And when I get my learners permit for driving you can take me out in our car.

Always your friend
Bob Kruckey
(Humpy)

He's been a lot of help to me. I'm glad you got your license. I hope you can take me out in our car. I'm glad you got your license. I hope you can take me out in our car.

Gary,
you're a very nice boy and I hope you have a lot of fun and luck the rest of your school years.

Good Luck

Dear Gary
It seems we haven't had as much fun this year as last, but let's try and make up for it next year.

Dear Gary,
Love you great thanks and should make you a honorable member of the class. I hope you keep fun. Best luck & maybe we'll have Spanish II together next year.

Dear Mary
We did have up
us at the end of
another school year.
It sure has been a pleasure
being in the same classes.
I am going to summer at I miss
E. C. I remember the Chase the best of
I. White can tell us. That for. I am
back in your future years. I have
this summer. Don't think too hard
for I'm sure I'll be
